

Everyonic Automation

A Company Providing Solution in Factory Automation,
Process Control Automation and Machine Automation.

YOU THINK IT, WE HAVE IT.

About us:

EVERYONIC AUTOMATION is established in early 2017 and become one of growing companies of the Automation and Instrumentation Companies.

EVERYONIC AUTOMATION is manufacturer of control panels and power panels, service provider in industrial automation i.e. Industrial control panel, PLC control panel, Motor control centre (MCC), Power control centre (PCC), SCADA panel and Programming in PLC, SCADA, VFD drive, Servo drive and HMI with Design and Development.

We also provides instrumentation and automation services and solutions in Water treatment plants, Sewage treatment Plant, Water Pumping Station, Sewage Pumping Station, Water Booster House, Manufacturing Plants, Pharmaceutical , Industrial machines, Special Purpose machines and ceramic machine industries.

Best part of **EVERYONIC AUTOMATION** is the skilled team. **EVERYONIC AUTOMATION** has the best of all field team members. Our team has Instrumentation, electrical, electronics, automation and IT engineers. We also provide service in turnkey projects in which we provides services in all plant automation, electrical and Instrumentation work.

Products are set with industries standards using high quality raw material and advanced tech under the guidance of our skilled professionals.

Company vision:

Everyonic's Vision is high as brightness of sun.

Company Mission:

Everyonic's Mission is "to make the manufacturing more productive and implementation of your ideas into the real word by innovation and technology.

Products & Services:

- PCC (Power control centre) Panel
- MCC (Motor control centre) Panel
- Marshalling Box
- Panel Design and Engineering Design
- Process Instrument Selection and Installation
- PLC (Programmable logic controller) development and programming
- SCADA (Supervisory control and data acquisition) Development
- HMI (Human Machine Interface) development and programming
- AC Drives
- Servo Drive & Motor
- Switchgears
- Sensor
- Installation & Commissioning of Process instruments
- Service & Solution Provider in Water Treatment, Pumping Station & Booster House
- Service & Solution Provider in Sewage treatment plant & sewage Pumping Station
- Automation in Pharmaceutical machine industries i.e. labelling machine, tablet machine, filling machine and many more.
- Automation in Ceramic machine Industries i.e. Tiles manufacturing assembly/machine, ceramic plant automation.
- Special Purpose Machine automation service and instrumentation service
- System Integration
- Plant Automation and control Design and Installation
- Home Automation

Our Contribution:

Motor Control Panel

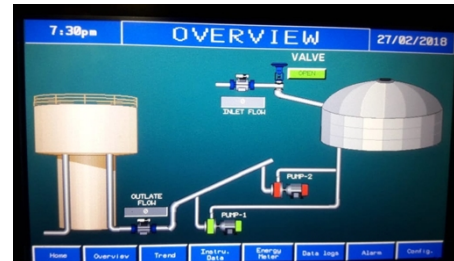

PLC Programming and Testing

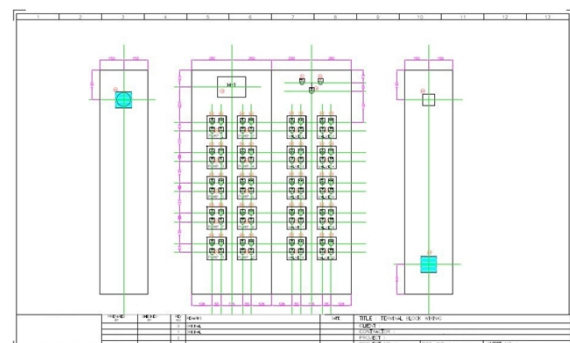

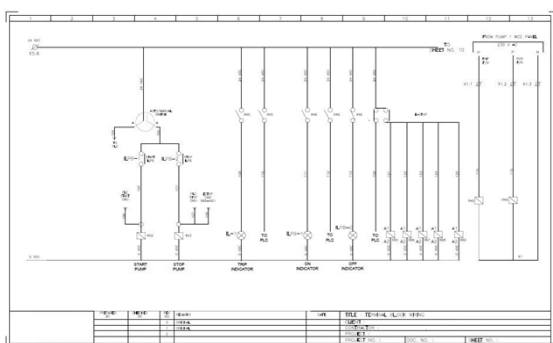

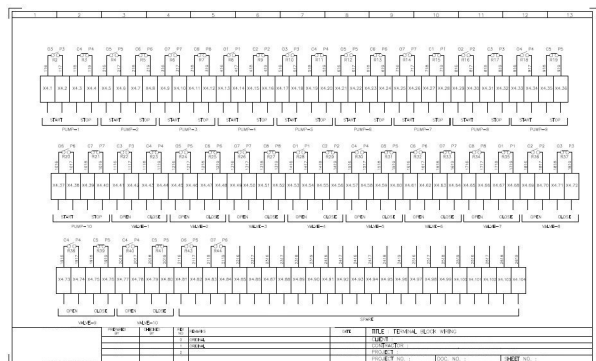

YOU THINK IT, WE HAVE IT.

HMI (Human Machine Interface) graphics

Control Wiring, Power wiring and Designing:

Machine Automation, Programming and Control Panel

Pharmaceutical- Automatic Double Side Labelling Machine

Ceramic Machine Automation and Control Panel

Factory Automation Service & Special Purposed Automation

Installation and Commissioning

Process Instruments and indicators

Cable laying and termination in Turnkey projects/plants and process factory

YOU THINK IT, WE HAVE IT.

WHY EVERYONIC AUTOMATION?

At EVERYONIC AUTOMATION, we strive for a holistic approach that focuses on your machine and business performance.

What may start out as an “order-by-order” relationship, can eventually develop into a mutually beneficial business relationship. EVERYONIC AUTOMATION will work with you to develop solutions that will help give you a competitive advantage throughout your machine’s life cycle.
